

A TechBridge Grant

Technology Grant Application Worksheet

Nonprofit organizations may apply online for the Dream Big Technology Grant as soon as February 14. Applying will only take about 25-30 minutes. Please use the information below to prepare for a quicker, online submission – imagine and write a description of your idea for technology ahead of time.

The TechBridge Grant Committee wants to know **your nonprofit's story, mission and how technology could improve your service delivery.**

The TechBridge Grant Committee wants to know how your nonprofit's programs align with the **TechBridge mission to break the cycle of generational poverty.**

Basic Information

Be prepared to fill-in basic info like your organizations' proper name, year founded, address, website address, total annual budget. You will need to confirm that your organization is a nonprofit 501(c)(3) charitable organization with your **Form 990 or 990EZ** and that it is recognized by the State of Georgia. You likely have the answers at your fingertips: How many people does your nonprofit serve? How many full-time paid employees work for the nonprofit? We will ask you to identify your major funders or funding sources to illustrate the sustainability of your project. Your NTEE-CC (National xxx is found on Form 990.

Most of the questions are Yes/No or Fill-in-the-Blank:

Does your organization have a strategic plan? **Yes/No**

Do you have a technology plan and a budget to support it? **Yes/No**

Do you regularly communicate your programs to potential clients? **Yes/No**

Do you currently use an online tools with your clients or potential clients? **Yes/No**

Are you able to easily refer people who are not a good fit to other programs? **Yes/No**

Does your nonprofit organization have a "theory of change"? **Yes/No**

Do your program models contain inputs, activities, outputs, and impact measures? **Yes/No**

Oh, no! Me? Write answers to 4 essay-style questions?!

Not to worry. The review panel is interested in learning your story. Express your thoughts. Paint your pain points. TechBridge welcomes additional information you believe will help tell your nonprofit's story. It is optional to upload or share links to videos, link to webpages and other information you believe support this application.

- ① Describe your idea and the situation that needs to be improved.
- ② Describe the overall impact your project would have on the people you serve.
- ③ How could this project help your organization become more effective, efficient and innovative (**cost saving, time saving, reporting, resource re-allocation, data-driven decision making, responsiveness, etc.**)?
- ④ How do the mission, programs and projects of your organization help communities to break the cycle of generational poverty?

Momentary Hang-ups, Pitfalls and Hurdles

- ✓ TechBridge requires your nonprofit's **NTEE Code**. Don't panic! This code is found on your Form 990 and is used by the Internal Revenue Service. NTEE stands for National Taxonomy of Exempt Entities.
- ✓ You will need to upload your Form 990 or 990EZ; just make sure you have your **Form 990** handy.

Technology Grant Application Worksheet

TechBridge asks you to put together a current technology picture by answering the following:

- ① Do you currently use **online tools** with your clients or potential clients?
- ② Are you tracking **outcome measures** on a regular basis?
- ③ Does your organization have a **client/case management** system?
- ④ Would you describe your technology as having a **solid foundation**?
- ⑤ Do your systems measure **productivity** with tools?
- ⑥ Does your nonprofit already have real-time reports, dashboards, etc. that the Board and leadership use drive decisions?
- ⑦ Does your organization have a **donor management system** for sponsors, foundations and grantors?
- ⑧ Do you track **volunteers, participation and events**?
- ⑨ Are you able to automatically **balance donations** with your **accounting software**?

Give the judges a sketch of your systems as they are today. We encourage you to let us know what software tools you use and the approximate annual cost for the software. (Software annual subscription, license fees hosting fees, employee support costs, etc.)
